SEA RESEARCH**

Journal of Sea Research 38 (1997) 437–438

## Contents Volume 38

### Research Papers

Tidal variations in suspended sediment concentration in the Ems estuary: origin and resulting sediment flux J. Van de Kreeke, C.M. Day and H.P.J. Mulder . . . . .	1
Resuspension and advection processes affecting suspended particulate matter concentrations in the central English Channel A.F. Velegrakis, S. Gao, R. Lafite, J.P. Dupont, M.F. Huault, L.A. Nash and M.B. Collins . . . . .	17
Heavy metals in <i>Diadema setosum</i> (Echinodermata, Echinoidea) from Singapore coral reefs P. Flamming, M. Warnau, A. Temara, D.J.W. Lane and M. Jangoux . . . . .	35
The use of lipid markers to define sources of organic matter in sediment and food web of the intertidal salt-marsh-flat ecosystem of Mont-Saint-Michel Bay, France T. Meziane, L. Bodineau, C. Retiere and G. Thoumelin . . . . .	47
Microphytobenthos biomass and community composition studied by pigment biomarkers: importance and fate in the carbon cycle of a tidal flat C. Barranguet, P.M.J. Herman and J.J. Sinke . . . . .	59
Effects of environmental variables on between-year variation of <i>Ulva</i> growth and biomass in a eutrophic brackish lake E.-j. Malta and J.M. Verschuure . . . . .	71
Why do the two most abundant copepods in the North Atlantic differ so markedly in their diel vertical migration behaviour? G.C. Hays, A.J. Warner and P. Tranter . . . . .	85
The metazoan meiobenthos along the continental slope of the Goban Spur (NE Atlantic) J. Vanaverbeke, K. Soetaert, C. Heip and A. Vanreusel . . . . .	93
Nursery function of an estuarine tidal marsh for the brown shrimp <i>Crangon crangon</i> A. Cattijisse, H.R. Dankwa and J. Mees . . . . .	109
Cage experiments in an East African mangrove forest: a synthesis J. Schrijvers and M. Vincx . . . . .	123
Long-term changes of macrozoobenthos in the Eastern Gotland Basin and the Gulf of Finland (Baltic Sea) in relation to the hydrographical regime A.O. Laine, H. Sandler, A.-B. Andersin and J. Stigzelius . . . . .	135
Population development of harbour seals <i>Phoca vitulina</i> in the Wadden Sea after the 1988 virus epizootic P.J.H. Reijnders, E.H. Ries, S. Tougaard, N. Nørgaard, G. Heidemann, J. Schwarz, E. Vareschi and I.M. Traut . . . . .	161

### Special Issue

#### EUROPEAN REGIONAL SEAS ECOSYSTEM MODEL II

Editors: J.G. Baretta-Bekker and J.W. Baretta

Preface . . . . .	169
The primary production module in the marine ecosystem model ERSEM II, with emphasis on the light forcing W. Ebenhöf, J.G. Baretta-Bekker and J.W. Baretta . . . . .	173
Microbial dynamics in the marine ecosystem model ERSEM II with decoupled carbon assimilation and nutrient uptake J.G. Baretta-Bekker, J.W. Baretta and W. Ebenhöf . . . . .	195
An analysis of benthic biological dynamics in a North Sea ecosystem model J.C. Blackford . . . . .	213
Climatological annual cycles of nutrients and chlorophyll in the North Sea G. Radach and J. Pätsch . . . . .	231

The effects of river input on the ecosystem dynamics in the continental coastal zone of the North Sea using ERSEM H.J. Lenhart, G. Radach and P. Ruardij . . . . .	249
Long-term simulation of the eutrophication of the North Sea: temporal development of nutrients, chlorophyll and primary production in comparison to observations J. Pätsch and G. Radach . . . . .	275
The impact of thermal stratification on phytoplankton and nutrient dynamics in shelf seas: a model study P. Ruardij, H. Van Haren and H. Ridderinkhof . . . . .	311
A modelling study of ecosystem dynamics and nutrient cycling in the Humber plume, UK J.I. Allen . . . . .	333
The seasonal dynamics of <i>Calanus finmarchicus</i> : development of a three-dimensional structured population model and application to the northern North Sea A.D. Bryant, M. Heath, W.S.G. Gurney, D.J. Beare and W. Robertson . . . . .	361
Modelling the population dynamics of <i>Calanus</i> in the Fair Isle Current off northern Scotland M. Heath, W. Robertson, J. Mardaljevic and W.S.G. Gurney . . . . .	381
Modelling the growth of herring from four different stocks in the North Sea M. Heath, B. Scott and A.D. Bryant . . . . .	413
